ELEGANT TOUCHES

Dressed in Duck-Matte siding, your home shows off all the thoughtful touches that set true beauty apart from the commonplace.

Think elegance. Think flawless. The siding you've chosen won't fade or blister, crack or peel, maintaining its beauty year after year.

When you select your designer color, you can count on it remaining true. And ABC Seamless is the only siding company that has never discontinued a color...so if you wish to match siding panels with trim elements like soffit and fascia, gutters and window and door trim now or later you'll be able to match or complement the shade you've chosen today.

Duck-Matte increases your home's beauty with its exceptional curb appeal. Our Cool Chemistry coating is formulated to reflect harmful infrared rays that cause fading and dulling. A range of surface textures and ABC Seamless's signature matte (low-gloss) finish maintain its aura of natural charm.

AN UNDERLAYMENT OF INSULATION KEEPS YOU WARM IN WINTER, WHILE THE COATING REFLECTS THE SUN'S RAYS IN SUMMER TO KEEP YOU COOL. IT'S SO EFFICIENT THAT IT HAS EARNED THE ENERGY STAR SEAL OF APPROVAL.
